

**AFFORDABILITY**

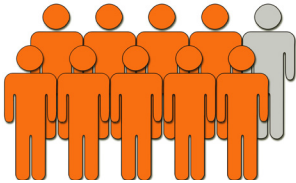

# Protect Affordable, High-Quality Coverage

The enhanced premium tax credit has empowered tens of millions of American to purchase health coverage on their own. Without Congressional action, this tax credit will be taken away from millions of working-class American families.

## A RECORD HIGH

# 24 million people

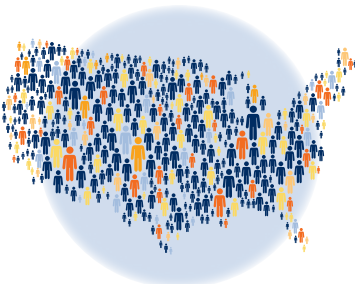

purchased their own health coverage on the Individual Health Insurance Marketplace

## 9 out of 10 people

use the tax credit to purchase their own health coverage

### Without these tax credits:

### Hard-working Americans

will see their health coverage costs rise by an average of 93 percent

### 5 million Americans

will lose their health coverage, including 2 million people with chronic conditions.

Every American deserves affordable health coverage. However, if Congress fails to extend the enhanced premium tax credit, the cost of health care will rise for working-class American families through high insurance premiums.

## Congress must act to extend these enhanced premium tax credits for hard-working American families.
